JAQUET DROZ
JAQUET DROZ
MANUFACTURE EN SUISSE
JAQUET DROZ 2021
The Grande Seconde Skelet-One Tourbillon aesthetic architecture is as
echnical as it is unique. For Only Watch, Jaquet Droz put to work its Ateliers
'Art as well, in order to produce a highly exclusive plique-à-jour dial, made
ecially for the famous charity sale. The composition is not formed of a
gle piece of enamel; rather it is made up of cells of different colors and
apes. These cells are separated by gold cloisons. With no metal backing,
composition is a standalone piece similar to a stained glass window. Every
e of enamel has been painstakingly selected for the model and fired at a
high temperature several times in a row before the ultimate polishing step.
atter requires a rare dexterity in order to control the risks of breaking the
nel. The tourbillon cage follows the geometry of the skeleton movement,
triple cross shape which, once a minute, aligns perfectly with its bridges.

and I'm always glad to share it with others, especially if it

is for a charity project which supports the Fight against serious illness.

KONSTANTIN
CHAYKIN
RUSSIA
MARTIAN
LIMITED
BUILT
MADE IN RUSSIA
Konstantin Chaykin presents the Martian Tourbillon Only Watch 2021 Piece Unique, the first wristwatch from the Russian creator to have a tourbillon, and the world's first Martian tourbillon, making a revolution every 61.65 seconds – the duration of one Mars minute – partially reducing the effects of Mars' gravity. The hand-wound Calibre K.22-0 has been developed from scratch. At its heart is a Martian tourbillon with an "alpha" carriage, as used in all of Konstantin Chaykin's tourbillons. For this watch, Konstantin Chaykin created a unique skeletonised dial with Joker-indication, the face of the Joker-Martian, with the world's first Martian calendar device, working based on the algorithms of Thomas Gangale's calendar system. The trademark smile of this new Wristmon is used as a representation of the Martian month, consisting of 28 sols, with the sol numeral markers made with symbols of the Martian numbering system that Konstantin Chaykin invented specially for this watch.

6 ноября в женевском Palexpo, под патронатом принца Монако Альберта II и в его присутствии, прошел девятый благотворительный аукцион Only Watch. За три часа торгов было собрано 30 млн франков – меньше, чем в 2019-м, но все же, согласитесь, не плохо! Яркие моменты продажи вы сможете заново пережить в нашей

фотогалерее, а о том, как проходил аукцион, читайте в нашей заметке. Все фото – © Nasha Gazeta
